

## VHL-1 Analysis

|                                       | Baseline (09/18/24-10/01/24) | Prior (01/01/25-01/14/25) | Current (01/15/25-01/28/25) | Since Inception |
|---------------------------------------|------------------------------|---------------------------|-----------------------------|-----------------|
| Avg Systolic BP (mmHg)                | 157.4                        | 113.55                    | 118.42 -                    | -38.98          |
| Avg Diastolic BP (mmHg)               | 93.6                         | 66.36                     | 72.92 -                     | -20.68          |
| Hypotensive Measurements <sup>1</sup> | 0                            | 0                         | 0                           | 0               |
| Peak SBP <sup>2</sup> (mmHg)          | 162.0                        | 122.67                    | 126.67                      | -35.33          |
| Peak DBP <sup>2</sup> (mmHg)          | 96.67                        | 73.0                      | 83.33                       | -13.34          |
| Low SBP <sup>3</sup> (mmHg)           | 145                          | 103                       | 109                         | -36             |
| Low DBP <sup>3</sup> (mmHg)           | 88                           | 44                        | 66                          | -22             |
| SBP SD (mmHg)                         | 7.64                         | 7.16                      | 6.68                        | -0.96           |
| DBP SD (mmHg)                         | 5.86                         | 8.52                      | 7.51                        | 1.65            |
| SBP CV (%)                            | 4.85                         | 6.31                      | 5.64                        | 0.79            |
| DBP CV (%)                            | 6.26                         | 12.84                     | 10.3 +                      | 4.04            |
| Progress (pts)                        | -                            | -                         | Worsening (-3)              |                 |
| Overall                               | Poor                         | Okay                      | Okay                        |                 |

<sup>1</sup> 'Hypotensive Measurements' indicates the count of systolic BP values <= 95 mmHg with a hypothetical average decrease of 5 mmHg.

<sup>2</sup> 'Peak' values represent the average of the three highest values in the timeframe.

<sup>3</sup> 'Low' values represent the single lowest value in the timeframe.

# VHL-1 Extremes (Page 1 of 1)

| Date                | Systolic BP | Diastolic BP |
|---------------------|-------------|--------------|
| 2024-10-01 20:14:00 | 178         | 110          |
| 2024-10-02 20:49:00 | 172         | 104          |
